HOTOVO

means done

HOTOVO in a nutshell

SOFTWARE DEVELOPMENT TEAMS...
THAT DELIVER.

A proven **long-term partner** of both global industry leaders and young creative startups, we're not only experts in software development... we're unwaveringly passionate about what we do!

13 years

longest partnership

5 years
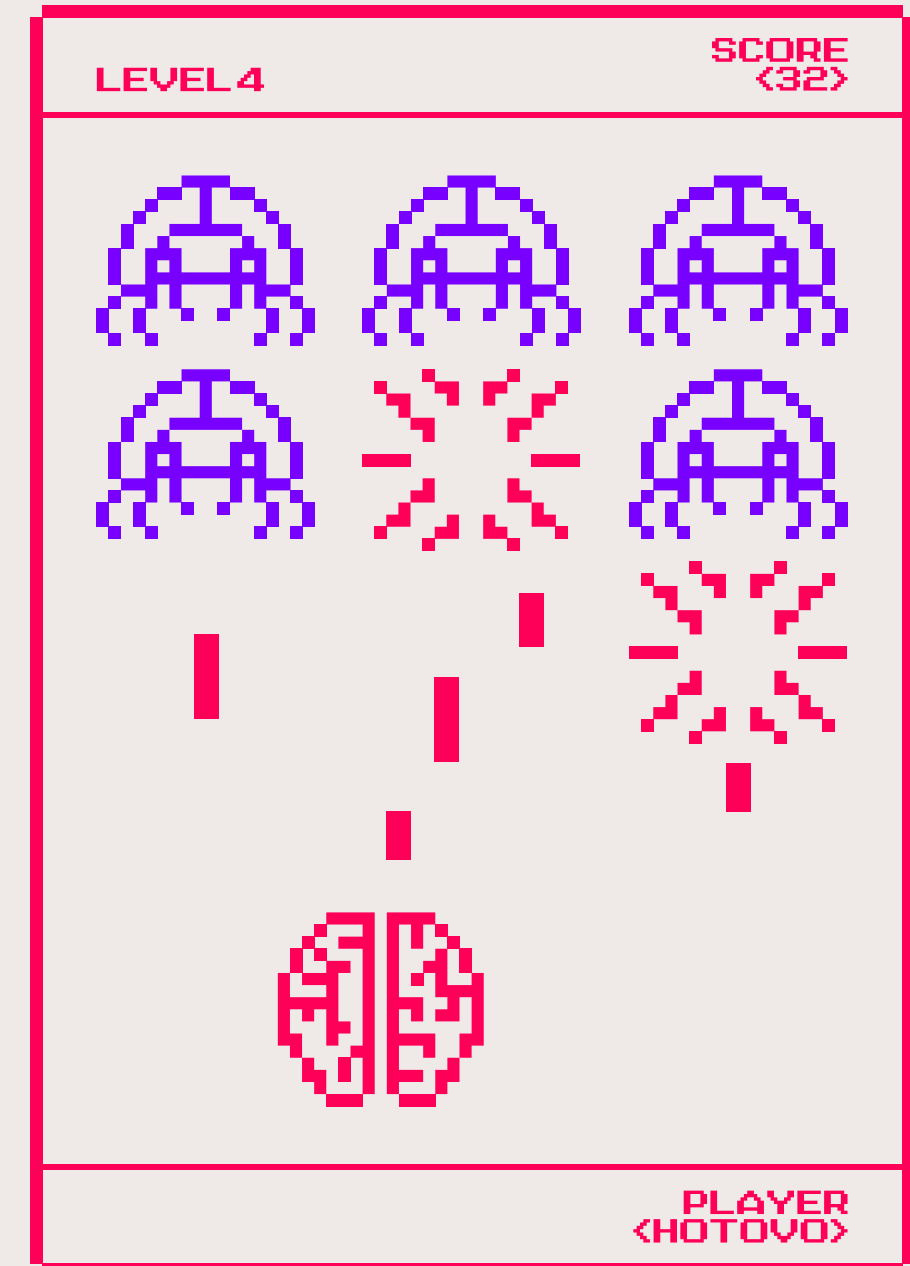

average cooperation

96%

team retention

We work by becoming an extension of your team. We share your vision and your long-term goals, meaning we become a reliable, committed long-term partner.
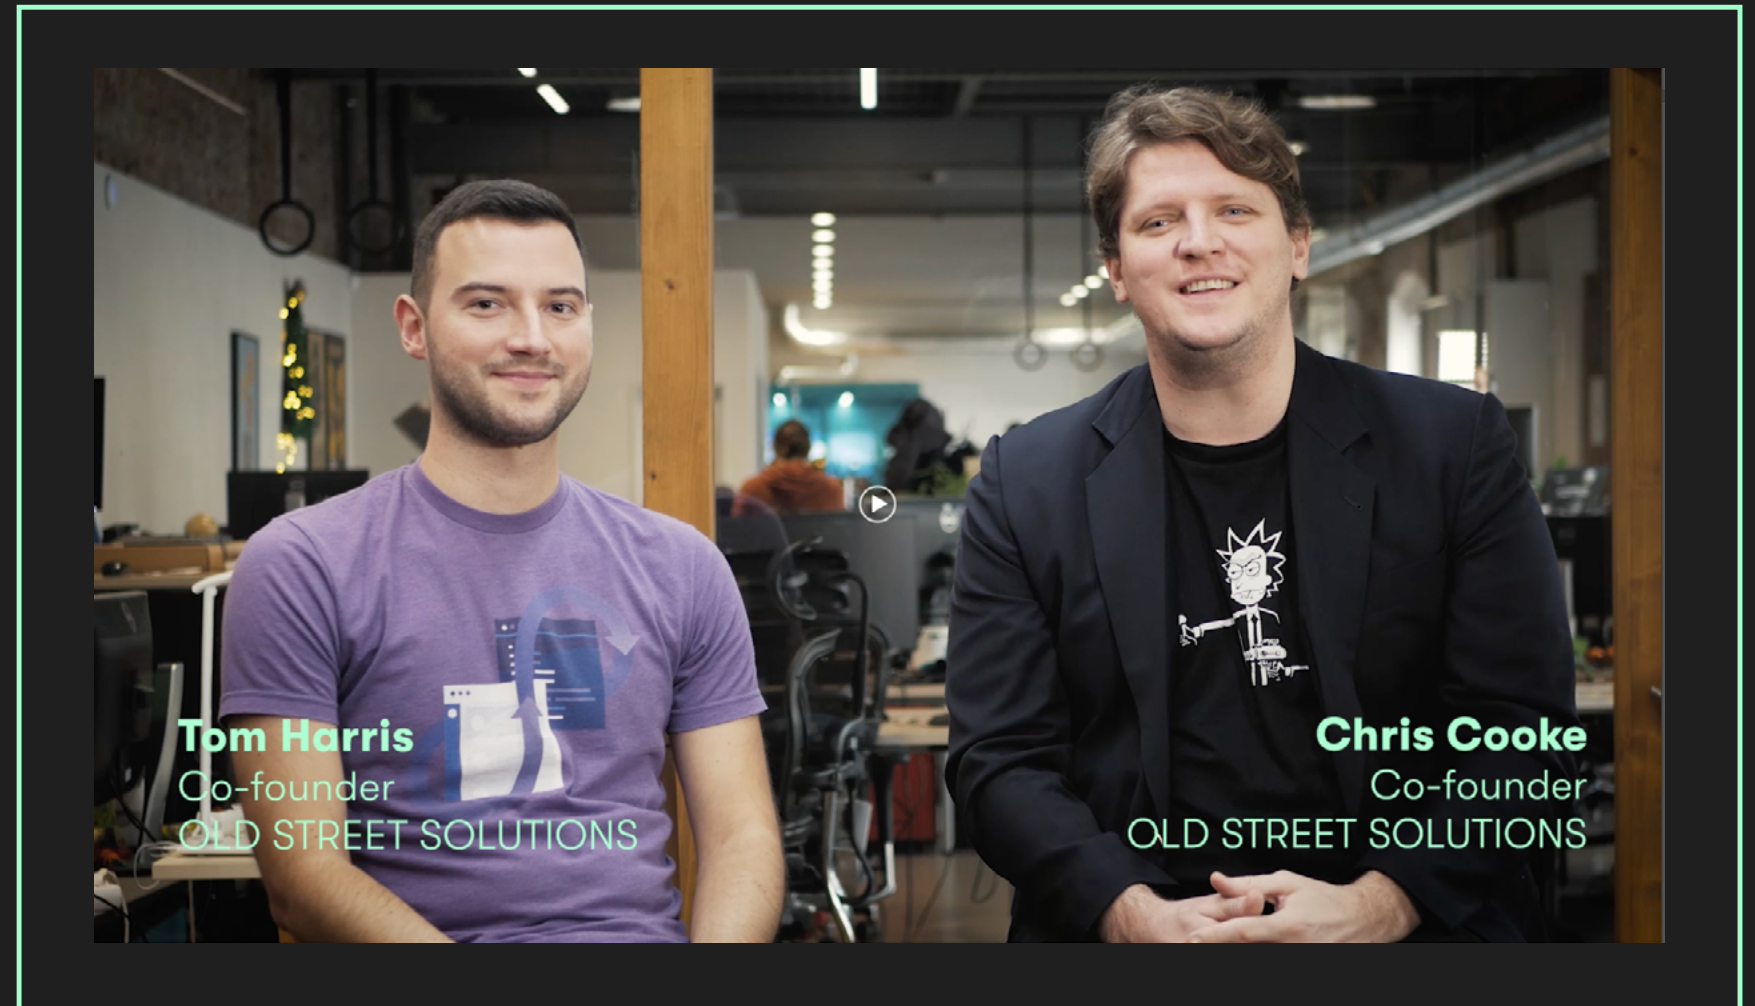

HOTOVO

HOW CAN WE HELP YOU?

We specialize in providing top-notch "outsourced" dedicated software development teams, which can help you:

1. Turn your idea into product.
2. Extend the capacity of your development teams in the long run.
3. Overcome temporary peaks or cover immediate ramp-up needs.
4. Fill gaps in specific skills and know-how.

PLAYER
<HOTOVO>

IN SLOVAK, "HOTOVO" MEANS DONE.

So when it comes to your technology you can rest assured... Whatever your need, **we'll get it done.**

Tom Harris
Co-founder
OLD STREET SOLUTIONS

Chris Cooke
Co-founder
OLD STREET SOLUTIONS

"Very awesome. Thanks for making something that will be so easy to sell :)"
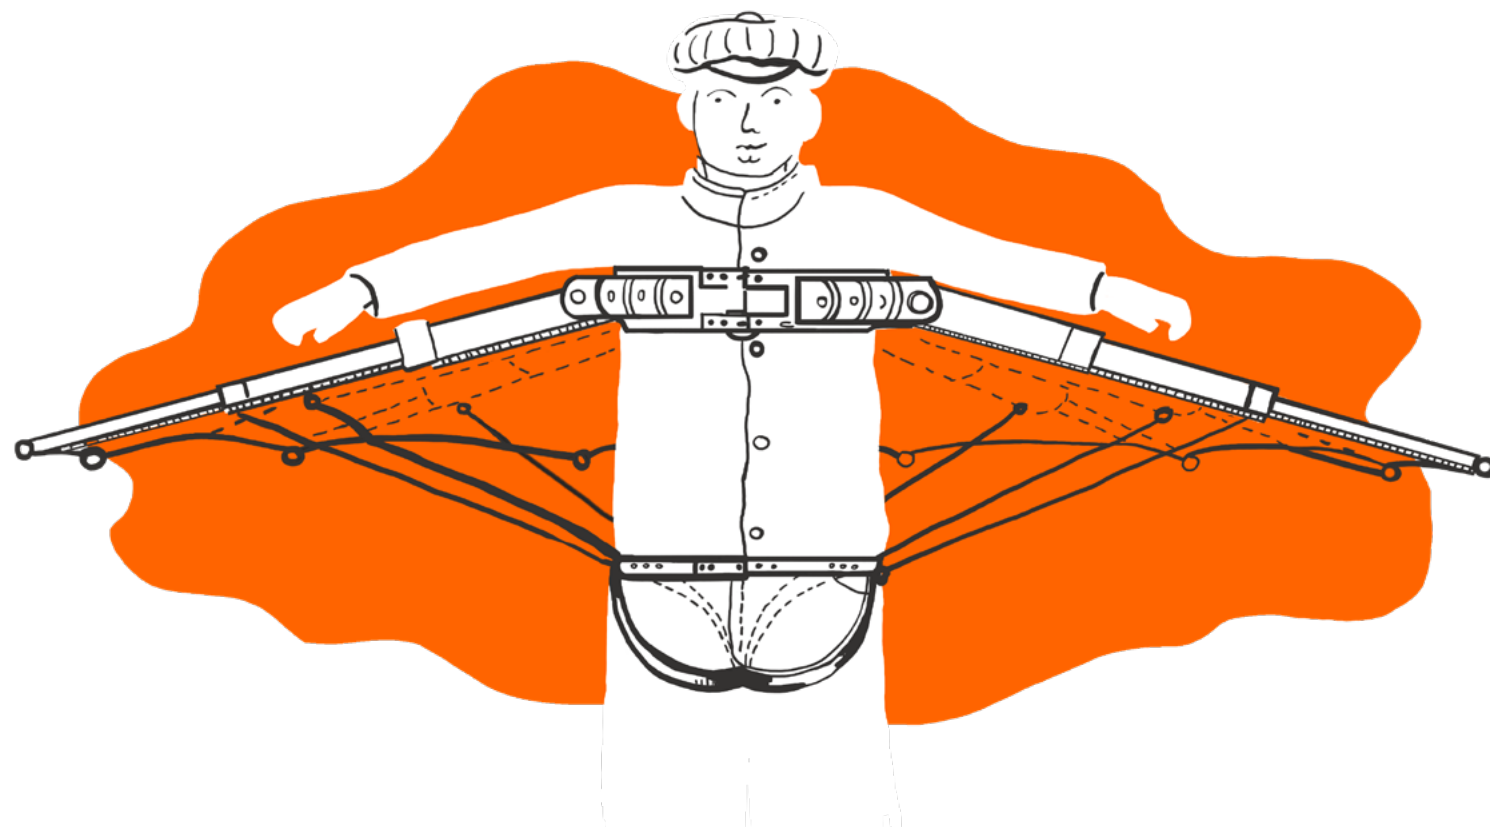

Chris Cooke, CEO at OSS

ENTERPRISE RISK-MANAGEMENT SOLUTION

"Hotovo has been an integral part of the product development and the success of the application. It's a partnership. It's really not a typical outsourcing arrangement."

Peter Walker, Chief Technology Officer
of The Protecht Group

Rhys Johnston
Head Of Development
at Protecht Group

SERVICES

PRODUCT DEVELOPMENT

You have a specific need; we fulfill it. We design, create and implement a complete software solution based on your needs and ideas.

AGILE TEAMS

A long-term, agile and strategic cooperation. A single developer or a dedicated team of skilled specialists – whatever your unique, specific and ever-changing needs demand.
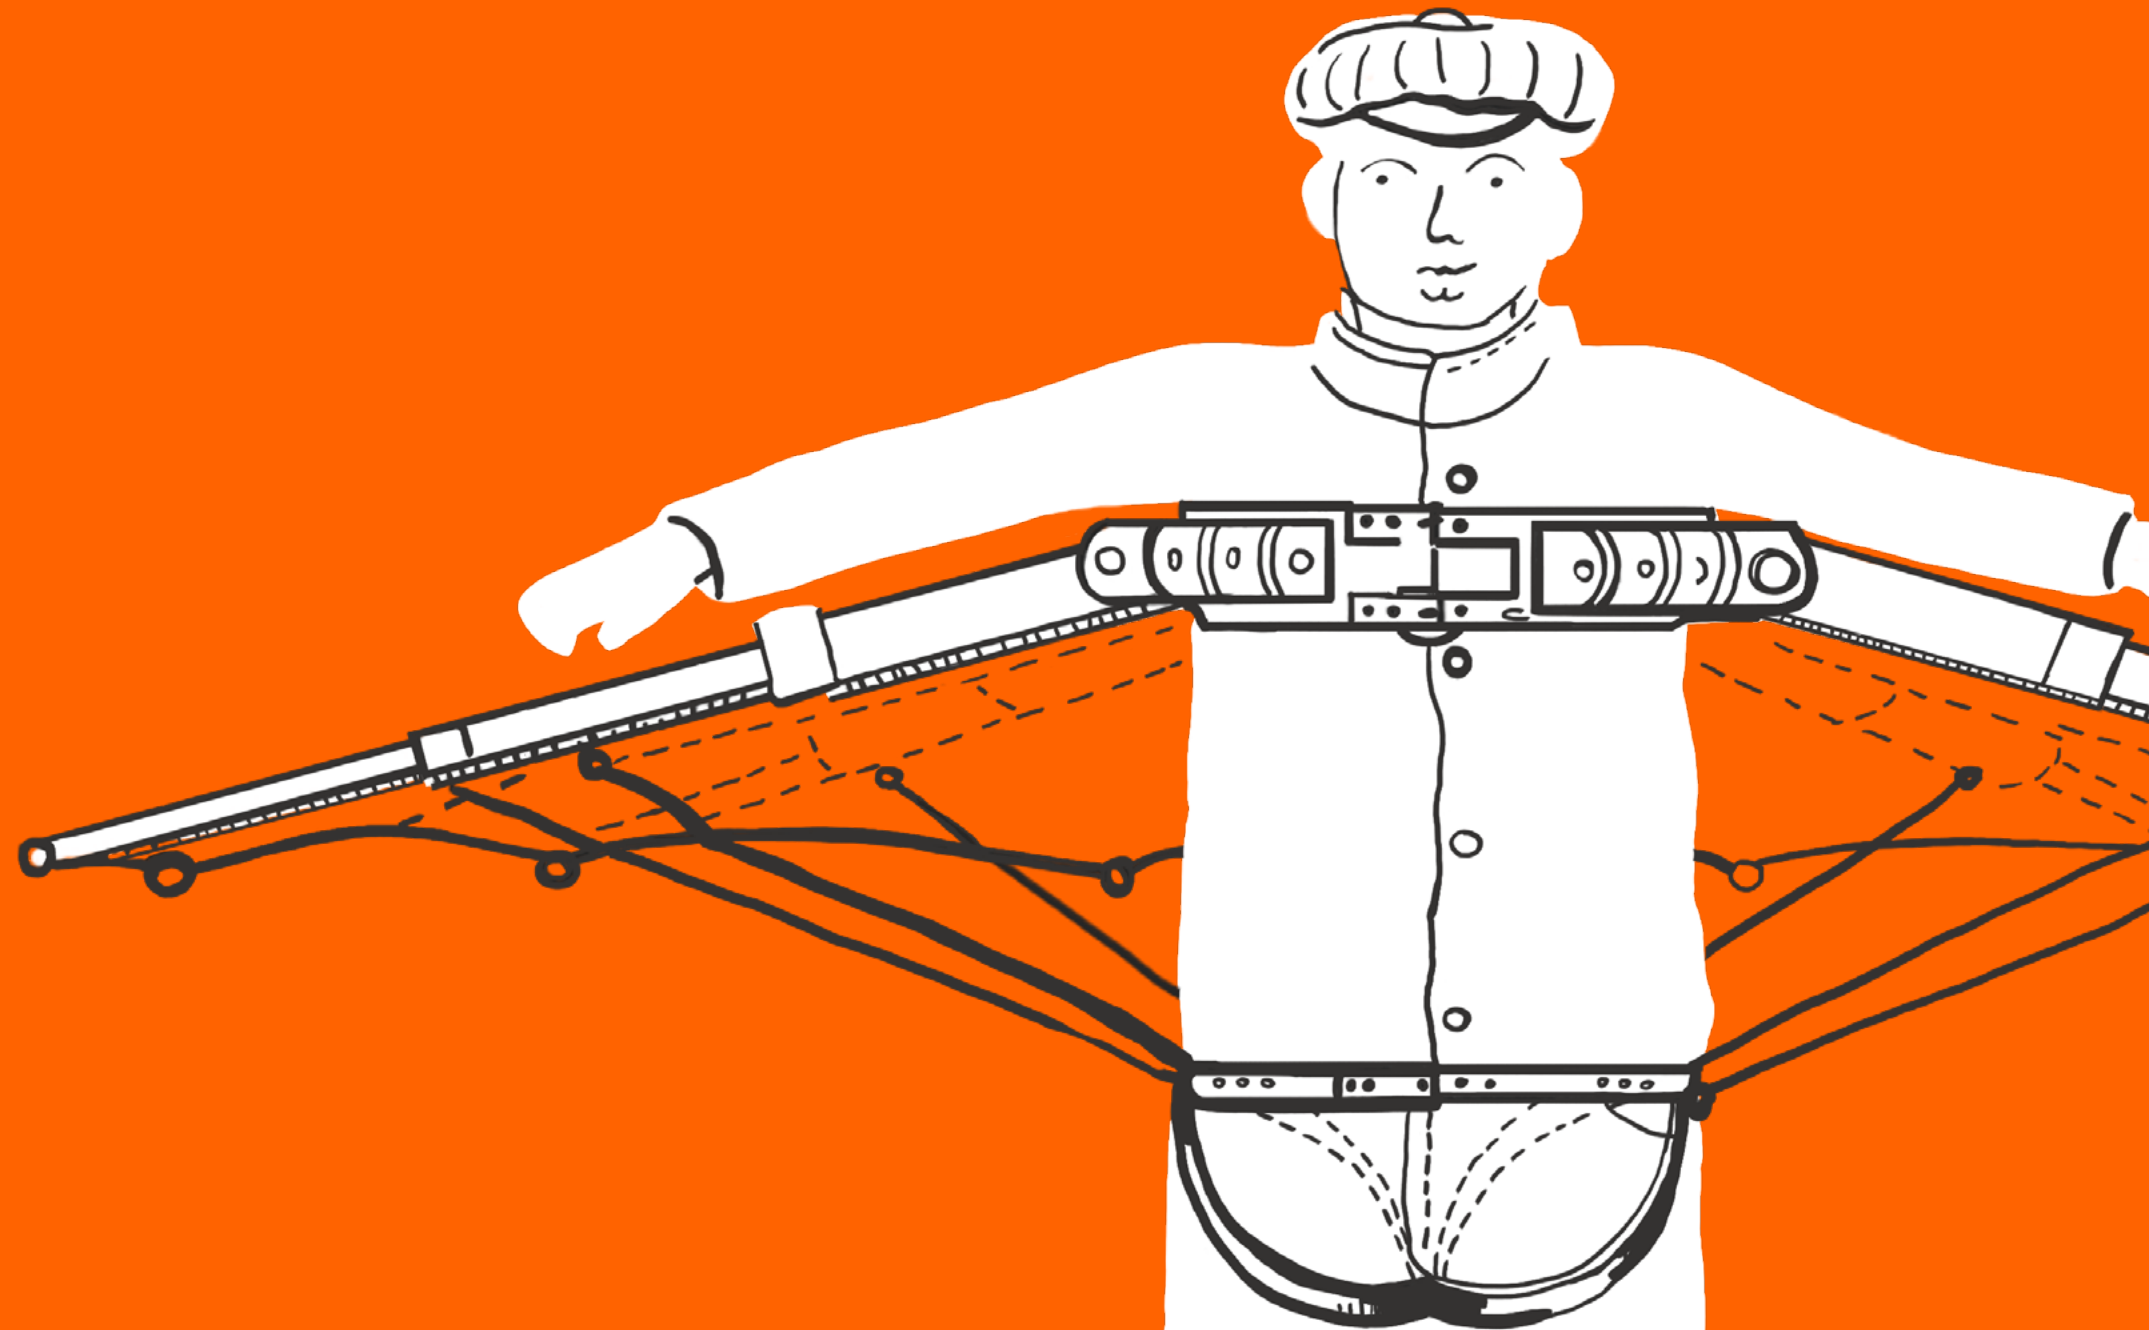

PRODUCT DEVELOPMENT

From the drawing board to reality.
Seamlessly.

We can develop:
Web applications
Mobile applications
Desktop applications
System integration
System automation
AI/Machine learning
and much more...

LEARN MORE

AGILE TEAMS

It works because we are a team of developers that are reliable, think in the long-term, deliver and scale. As a true partner should.

Team roles can include:

Business analyst
System architect
UI/UX designer
Software developer
QA specialist
DevOps engineer
Scrum master,
Product owner

LEARN MORE

DIFFERENT INDUSTRIES, DIFFERENT CHALLENGES.
WE LOVE IT ALL.

We've worked with industries ranging from Fintech and banking to retail, agritech, healthcare, automotives, media, risk management, power engineering, and a whole lot more...

Whatever your "story", by augmenting your software development team with HOTOVO **you'll cut both the time and expense** of achieving the complex software integration and development projects your business needs to succeed.

We cover the **entire software development lifecycle**, from conception to launch, including **support and maintenance.** We'll take the challenges off your plate that have been hindering your ability to concentrate on your core competencies.

...and best of all,
we'll make the journey fun!

HOTOVO

OUR EXPERTISE

- custom development: web, desktop, mobile
- system integration
- AWS microservices
- automation
- MuleSoft Anypoint
- Oracle OIC
- Atlassian

- industrial networking
- API/ABI design
- electronics: ICs (integrated circuits), μControllers
- PCB (printed circuit board) prototyping
- consulting
- graphic design
- product development

OUR TECHNOLOGY STACK

Web Applications:
React, Angular, Vue.js, Ionic,
Next.js, Progressive Web Apps,
Material UI, Angular Material,
Ant Design, PatternFly, Bootstrap,
HTML5, CSS, Webpack, GWT/GXT,
Web Forms, Razor Pages

Desktop Applications:
Hybrid HTML5 (Atom Electron +
NodeJS, Java + HTML5), Java FX,
OSX (Cocoa, ObjectiveC, Swift),
.NET (WinForms, WPF)

Mobile Applications:
Native (iOS, Android),
Cross Platform (Flutter, React
Native, Progressive Web Apps)

Backend Solutions:
REST (Spring / Micronaut
Controllers, Jersey),
Non-J2EE (Spring Boot,
Micronaut),
J2EE (MicroProfile, Paraya,
Quarkus), Nest.js, Express.js,
Jetty, Tomcat, Netty, Node.js

Mule Solutions:
MuleESB, CloudHub, API Gateway,
Custom connectors, API policies,
RAML

Deployments:
Configuration / Firmwares
(Kubernetes, Terraform, Packer,
Docker),
Provisioning (Ansible, GitOps –
Flux, ArgoCD),
CI/CD (Bitbucket, Jenkins,
Travis CI, CircleCI),
AWS (EC2, API Gateway, Lambda,
CloudFront, S3, DynamoDB),
Others (OpenShift, LXC, LXD,
Internet Of Things),
Prometheus Stack (Prometheus,
Alerting, Grafana)

Technologies:
Languages (TypeScript,
Javascript, Java, .NET),
Relational Databases
(PostgreSQL, MySQL, MS SQL,
Oracle),
NonSQL (MongoDB, DynamoDB,
ElasticSearch), Messaging
(ActiveMQ, RabbitMQ, HornetQ,
ZMQ, MQTT, JMS, AMQP, Kafka)
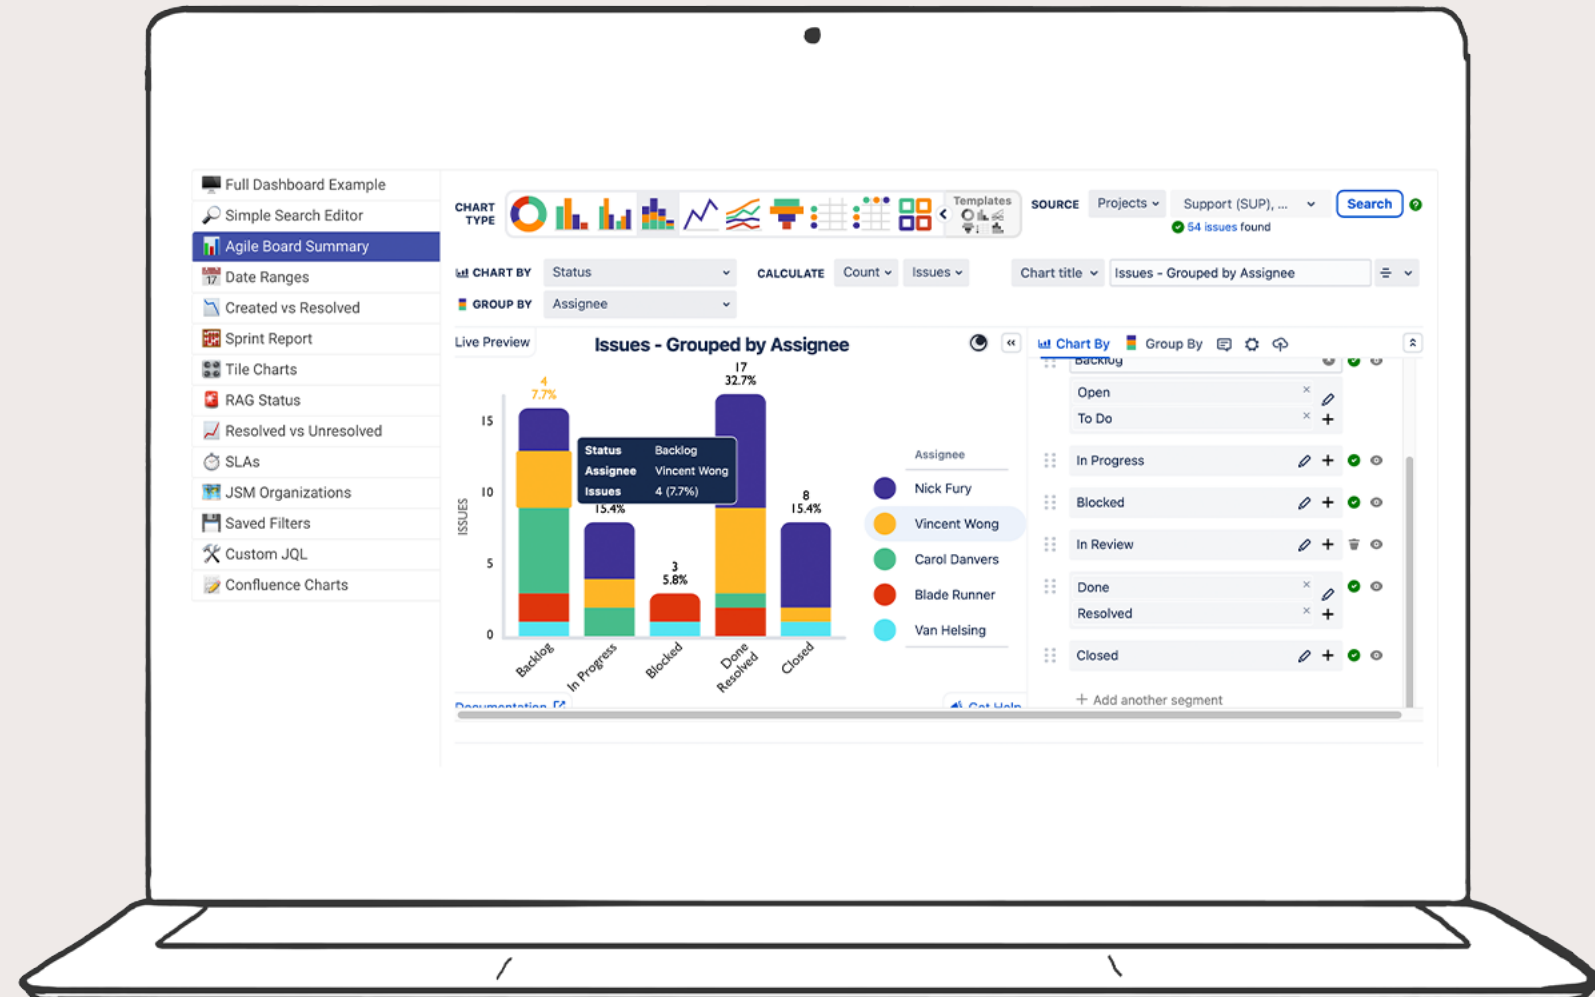

Automation:
Cloud automation,
Industrial Computers and PLC-s,
Industrial ethernet,
Automation protocols (EtherNet/IP,
EtherCAT, ControlNet, DeviceNet,
Profibus, Modbus, DH-485),
Digital Signing (HSM: Hardware
Security Modules, RSA
Cryptography),
Device Protocols (ABI),
Operator panels, I/O modules

Quality Assurance:
Playwright, Cypress, Jasmine,
Jest, Karma, Robot Framework

OUR METHODOLOGY AND TOOLS

- **Agile**: SCRUM, Kanban, XP
- **Collaboration**: Jira, Confluence, BaseCamp, Trello, Azure DevOps
- **Source control**: Git, Bitbucket, SourceTree, Gitflow
- **Continuous delivery**: Bamboo, Jenkins
- **App monitoring**: Prometheus stack
- **Support**: Jira Service Desk

IT SIMPLY WORKS!

At HOTOVO, we pride ourselves on being **leaders**; always being one step ahead of our competitors, and always looking for new ways to create, develop and help lead our clients to success.

We also pride ourselves on being **real**; being personal, being transparent, being flexible, scalable, honest and available. We're part of your team, we're just as invested as you.

And it works, because we love what we do, and we love the way we do it. We create exciting, cutting-edge technologies across multiple domains. We have fun. And we think long term, scale and deliver. As a true partner should.

Get in touch, and let's get started!
